ENTERPRISE INDUSTRIAL SECURITY

Fresh Haystack is a “game-changer”, as some of our clients have described it after implementation. A user friendly workflow-based Case Management solution built for the specific purpose of streamlining the Industrial Security management process while maintaining compliance. Fresh Haystack was built to increase efficiency and productivity, make routine compliance tasks easier, and enable paperless automation and visibility into the security clearance process.

Fresh Haystack brings clarity to candidates, security personnel, employees, and auditors. Our modular system is easy to implement, allowing for a rapid, Agile-centered deployment.
