INSIDER THREAT DEFENSE

Fresh Haystack, a division of CANDA Solutions, is a modular security case management solution created from years of experience deploying generic case management systems for Federal and Commercial customers that were expensive, difficult to navigate, costly, and slow to implement. With a dedication to "Getting Things Done," we knew there had to be a better way to gain clarity across the many existing departmental data silos using case management framework.

CAPABILITIES

- Insider Threat Defense
  - Risk / Threat Assessments
  - Continuous Evaluation
  - Insider Threat
  - CounterIntelligence
- Enterprise Personnel / Industrial Security
- Continuous Adaptive Risk Evaluation
- Enterprise Investigations Management
- Case Management Solutions

ABOUT CANDA Solutions

CANDA provides Insider Threat Defense solutions that enable whole-person, contextual visibility and threat mitigation opportunities. Our public and private sector work experience positions us to support the missions of the Warfighter, the National Security workforce, and Corporate entities.
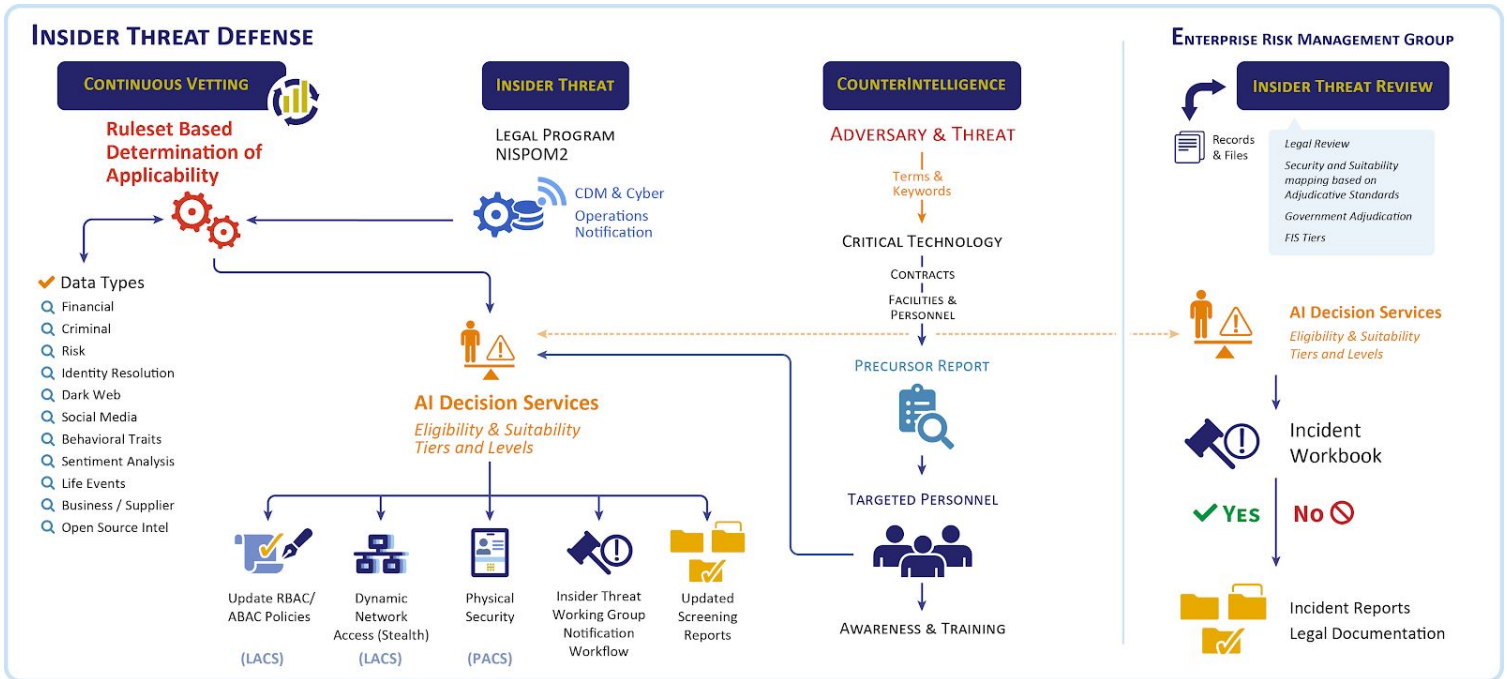

HOW WE MAKE A DIFFERENCE

CANDA has deep security domain experience which enables up-to-date alignment of policy and software, keeping our customers on the forefront of the latest risk mitigation methods and techniques. We provide a way to analyze, process, adjudicate, store, and trend information of interest in a safe and secure manner.

BENEFITS

- *Protecting:*
  - *Corporate Brand*
  - *Intellectual Property*
  - *Trade Secrets*
  - *Legal Liabilities*
  - *Data Leaks*
  - *Proprietary Assets*
- *Compliance*
- *Full Audit*
- *Reporting & Metrics*
- *Privacy*
- *Configurable Risk Model*
- *Relevant Alerts Only*
- *Behavioral Analytics*
- *Federated Data Providers*
- *Cloud-based*
- *Security as a Service*
- *ROI*
- *Flexible Licensing*

Instant Velocity with a Fresh Approach

Failure to integrate Personnel, Cyber, & Insider Threat risks can have disastrous consequences. Analyzing risk in isolated silos deprives your Enterprise of the powerful, contextual insights provided by integrated risk assessment and can result in *Edward Snowden*-like disasters. Enterprise Risk Assessment must leverage the interdependencies between security and other internal systems. Only then can true risks be fully understood across the Enterprise by coordinating with Security, IT, Legal, Recruiting, and Human Resources.

Fresh Haystack Insider Threat Defense (**ITD**) is an innovative end-to-end solution that places all elements of security risk into a single, contextual, easy-to-use platform. ITD improves risk mitigation effectiveness by integrating the Enterprise' risk into a Common Operating Picture (COP) while complying with organizational policies, regulations, and standards. It allows a review of all risk-related data discoveries and reporting, all while respecting employees' privacy guidelines and procedures.

ITD not only addresses current challenges in risk assessment, but it also actively anticipates the evolving complexity of the security industry and leverages technologies designed to adapt to the growing threats placed on your Enterprise. Undoubtedly, exponential growth of compliance requirements, cyber-attacks on the IP, and corporate / consumer data losses will result in the need to process large volumes of data from diverse systems. ITD was purpose built to assist your crucial security needs as you confront an ever-changing array of threat vectors.
